### Machine Cut

Depending on the lay of the stone, Machine Cut veneer can be elegant or rustic and unrefined. Our Machine Cut veneer is snapped stone with heights created from the natural horizontal layers in the quarry formed millions of years ago.

### Tumbled Dimensional Ashlar

The old world appearance of Tumbled Dimensional Ashlar veneer is created when quarried stone snapped at random lengths are then sawn to specified heights, usually 2 1/4", 5", 7 3/4" and 10 1/2". Snapped once more to the correct depth, the Dimensional Ashlar stone is then tumbled to give the impression that the stone is aged.

### Dimensional Ashlar

Dimensional Ashlar veneer is created by sawing the stone to specified heights, usually, 2 1/4", 5", 7 3/4" and 10 1/2". The stone can be laid in a random pattern. As the mason works the stone, it fits together similar to a puzzle creating clean lines and a uniform appearance.

Blue River Tumbled Ashlar

**Webwall** Like the mosaics of ancient Rome, Webwall consist of random shapes and sizes of natural stone, pieced together to create magnificent works of art. These stones can be used to create a dramatic fireplace, a stunning exterior, or can be combined with Machine Cut Stone to create a look of old world elegance.
